

PROJECT SPECIALIST

ROLE DESCRIPTION & RESPONSIBILITIES

DEPARTMENT: Project Team

REPORTS TO: Installation Manager

SUMMARY OF POSITION:

An integrator will participate in the installation phase of a project. This position will require a minimum of 70% travel, flexibility, a strong work ethic and the ability to work at height in lifts. You will be expected to work long days, lead volunteers, assist in preparing for deployments and work efficiently while protecting the church's best interest. You need to be organized, able to handle repetitive tasks and a team player to achieve success in this role.

WHAT WE ARE TRYING TO DO:

House Right serves the Kingdom of God by partnering with people to equip the church. You are going to fuel efforts to do as much of this as we can together.

ROLES AND RESPONSIBILITIES:

- Complete project execution tasks including but not limited to: rigging, terminating, pulling cable, and leading volunteers
- Project preparation including creating tool kits, pulling hardware, and studying installation drawing sets
- Act as an ambassador for HouseRight

SKILLS or TECHNOLOGY REQUIREMENTS:

- You have to be awesome
- 3+ Years of work experience
- AVL knowledge is a plus
- Familiar with assorted power and hand tools
- Ability to read a plan set
- Highly organized
- Self-managed
- Able to work extended hours
- Flexibility

TIME, LOCATION, COMPENSATION:

This position is a full-time salaried role with benefits outlined separately as a W2 employee. The primary job location is TBD.
